IMMUNOLOGY

CONTENTS

Vol 99, No 1, January 2000

Original articles

1 **R. E. Tascon, S. Ragno, D. B. Lowrie & M. J. Colston:** Immunostimulatory bacterial DNA sequences activate dendritic cells and promote priming and differentiation of $CD8^+$ T cells

8 **B. M. Colombo, R. Lacave, C. Pioche-Durieu, C. Masurier, F. M. Lemoine, M. Guigon & D. Klatzmann:** Cellular but not humoral immune responses generated by vaccination with dendritic cells protect mice against leukaemia

16 **G. M. Woods, K. V. Doherty, R. C. Malley, M. J. Rist & H. K. Muller:** Carcinogen-modified dendritic cells induce immunosuppression by incomplete T-cell activation resulting from impaired antigen uptake and reduced CD86 expression

23 **E. Liébana, A. Aranaz, F. E. Aldwell, J. McNair, S. D. Neill, A. J. Smyth & J. M. Pollock:** Cellular interactions in bovine tuberculosis: release of active mycobacteria from infected macrophages by antigen-stimulated T cells

30 **E. C. Lavelle, G. Grant, A. Pusztai, U. Pfüller & D. T. O'Hagan:** Mucosal immunogenicity of plant lectins in mice

38 **A. Fayyazi, O. Scheel, T. Werfel, S. Schweyer, M. Oppermann, O. Götze, H. J. Radzun & J. Zwirner:** The C5a receptor is expressed in normal renal proximal tubular but not in normal pulmonary or hepatic epithelial cells

46 **R. J. Quigg, C. He, B. K. Hack, J. J. Alexander & B. P. Morgan:** Production and functional analysis of rat CD59 and chimeric CD59-Crry as active soluble proteins in *Pichia pastoris*

54 **B. Barnhart, G. S. Ford, A. Bhushan, C. Song & L. R. Covey:** A polymorphic CD40 ligand (CD154) molecule mediates CD40-dependent signalling but interferes with the ability of soluble CD40 to functionally block CD154:CD40 interactions

62 **A. P. Warren, K. Patel, Y. Miyamoto, J. N. Wygant, D. G. Woodside & B. W. McIntyre:** Convergence between CD98 and integrin-mediated T-lymphocyte co-stimulation

69 **M. Müschen, C. Moers, U. Warskulat, J. Even, D. Niederacher & M. W. Beckmann:** CD95 ligand expression as a mechanism of immune escape in breast cancer

78 **J. A. Gebe, M.-B. C. Llewellyn, H. Hoggatt & A. Aruffo:** Molecular cloning, genomic organization and cell-binding characteristics of mouse Spα

87 **R. Hershkoviz, H. Schor, A. Ariel, I. Hecht, I. R. Cohen, O. Lider & L. Cahalon:** Disaccharides generated from heparan sulphate or heparin modulate chemokine-induced T-cell adhesion to extracellular matrix

94 **T. Iwasaki, T. Hamano, K. Saheki, T. Kuroiwa, Y. Kataoka, Y. Takemoto, A. Ogata, J. Fujimoto & E. Kakishita:** Graft-versus-host-disease-associated donor cell engraftment in an F_1 hybrid model is dependent upon the Fas pathway

101 **D. J. Cousins, D. Richards, D. M. Kemeny, S. Romagnani, T. H. Lee & D. Z. Staynov:** DNase I footprinting of the human interleukin-5 gene promoter

109 **K. M. Gillespie, C.-C. Szeto, V. M. Betin & P. W. Mathieson:** Role of β_1 and β_2 subunits of the interleukin-12 receptor in determining T helper 1/T helper 2 responses *in vivo* in the rat

113 **M. Wadhwa, A. Meager, P. Dilger, C. Bird, C. Dolman, R. G. Das & R. Thorpe:** Neutralizing antibodies to granulocyte–macrophage colony-stimulating factor, interleukin-1α and interferon-α but not other cytokines in human immunoglobulin preparations

124 **N. L. Brown, S. A. Alvi, M. G. Elder, P. R. Bennett & M. H. F. Sullivan:** The regulation of prostaglandin output from term intact fetal membranes by anti-inflammatory cytokines

134 **I. Kurimoto, T. Kitazawa & J. W. Streilein:** Studies of delayed systemic effects of ultraviolet B radiation (UVR) on the induction of contact hypersensitivity, 2. Evidence that interleukin-10 from UVR-treated epidermis is the critical mediator

141 **I. A. M. MacPhee, D. R. Turner & D. B. G. Oliveira:** The role of endogenous steroid hormones in the generation of T helper 2-mediated autoimmunity in mercuric chloride-treated Brown–Norway rats

147 **K. Tocce, K. Suppiah, C. Rago, R. Liberchuk, K. Duffy & J. Riggs:** DBA/2J ($Mls\text{-}1^a$) B-cell differentiation in BALB.*xid* recipients

153 **J. J. Campos-Perez, M. Ward, P. S. Grabowski, A. E. Ellis & C. J. Secombes:** The gills are an important site of iNOS expression in rainbow trout *Oncorhynchus mykiss* after challenge with the Gram-positive pathogen *Renibacterium salmoninarum*

162 Editorial acknowledgment

Vol 99, No 2, February 2000

Original articles

163 **S. Oehen, T. Junt, C. López-Macías & T. A. N. Kramps:** Antiviral protection after DNA vaccination is short lived and not enhanced by CpG DNA

170 **K. Kranzer, M. Bauer, G. B. Lipford, K. Heeg, H. Wagner & R. Lang:** CpG-oligodeoxynucleotides enhance T-cell receptor-triggered interferon-γ production and up-regulation of CD69 via induction of antigen-presenting cell-derived interferon type I and interleukin-12

179 **M. Toda, H. Sato, Y. Takebe, Y. Taniguchi, S. Saito, S. Inouye, T. Takemori & M. Sakaguchi:** Inhibition of immunoglobulin E response to Japanese cedar pollen allergen (Cry j 1) in mice by DNA immunization: different outcomes dependent on the plasmid DNA inoculation method

187 **T. Ninomiya, H. Takimoto, G. Matsuzaki, S. Hamano, H. Yoshida, Y. Yoshikai, G. Kimura & K. Nomoto:** $V\gamma1^+$ $\gamma\delta$ T cells play protective roles at an early phase of murine cytomegalovirus infection through production of interferon-γ

195 **S. G. Rhodes, B. M. Buddle, R. G. Hewison & H. M. Vordermeier:** Bovine tuberculosis: immune responses in the peripheral blood and at the site of active disease

203 **R. A. Silva, M. S. Gomes & R. Appelberg:** Minor role played by type I tumour necrosis factor receptor in the control of *Mycobacterium avium* proliferation in infected mice

208 **L. M. Macht, C. J. Elson, J. R. Kirwan, J. S. H. Gaston, A. G. Lamont, J. M. Thompson & S. J. Thompson:** Relationship between disease severity and responses by blood mononuclear cells from patients with rheumatoid arthritis to human heat-shock protein 60

215 **Y. Houri-Haddad, W. A. Soskolne, A. Halabi, V. Barak & L. Shapira:** Repeat bacterial challenge in a subcutaneous chamber model results in augmented tumour necrosis factor-α and interferon-γ response, and suppression of interleukin-10

221 **G. Barcenas-Morales, M. Merkenschlager, F. Wahid, R. Döffinger & J. Ivanyi:** Recessive expression of the H2A-controlled immune response phenotype depends critically on antigen dose

229 **A. Nicol, M. Nieda, Y. Koezuka, S. Percelli, K. Suzuki, K. Tadokoro, S. Durrant & T. Juji:** Human invariant $V\alpha24^+$ natural killer T cells activated by α-galactosylceramide (KRN7000) have cytotoxic anti-tumour activity through mechanisms distinct from T cells and natural killer cells

235 **T. H. Thatcher, D. P. O'Brien, S. Altuwaijri & R. K. Barth:** Increasing the frequency of T-cell precursors specific for a cryptic epitope of hen-egg lysozyme converts it to an immunodominant epitope

243 **M.-H. Lee, T. Kataoka, N. Honjo, J. Magae & K. Nagai:** *In vivo* rapid reduction of alloantigen-activated $CD8^+$ mature cytotoxic T cells by inhibitors of acidification of intracellular organelles, prodigiosin 25-C and concanamycin B

249 **D. C. Douek & D. M. Altmann:** T-cell apoptosis and differential human leucocyte antigen class II expression in human thymus

257 **N. Brosh, E. Eilat, H. Zinger & E. Mozes:** Characterization and role in experimental systemic lupus erythematosus of T-cell lines specific to peptides based on complementarity-determining region-1 and complementarity-determining region-3 of a pathogenic anti-DNA monoclonal antibody

266 **V. Sharma, J. L. Sparks & J. D. Vail:** Human B-cell lines constitutively express and secrete interleukin-16

272 **K. M. Haas & D. M. Estes:** Activation of bovine B cells via surface immunoglobulin M cross-linking or CD40 ligation results in different B-cell phenotypes

279 **C. Ribbens, J.-M. Dayer & C. Chizzolini:** CD40–CD40 ligand (CD154) engagement is required but may not be sufficient for human T-helper 1 cell induction of interleukin-2- or interleukin-15-driven, contact-dependent, interleukin-1β production by monocytes

287 **P. L. Podolin, E. F. Webb, M. Reddy, A. Truneh & D. E. Griswold:** Inhibition of contact sensitivity in human $CD4^+$ transgenic mice by human CD4-specific monoclonal antibodies: $CD4^+$ T-cell depletion is not required

296 **T. Kitazawa & J. W. Streilein:** Studies on delayed systemic effects of ultraviolet B radiation on the induction of contact hypersensitivity, 3. Dendritic cells from secondary lymphoid organs are deficient in interleukin-12 production and capacity to promote activation and differentiation of T helper type 1 cells

305 **A. Basu, G. Chakrabarti, A. Saha & S. Bandyopadhyay:** Modulation of $CD11C^+$ splenic dendritic cell functions in murine visceral leishmaniasis: correlation with parasite replication in the spleen

314 **G. Nilsson, D. D. Metcalfe & D. D. Taub:** Demonstration that platelet-activating factor is capable of activating mast cells and inducing a chemotactic response

320 **A. Krętowski, K. M. Gillespie, P. J. Bingley & I. Kinalska:** Soluble L-selectin levels in type I diabetes mellitus: a surrogate marker for disease activity?

326 **N. K. Rushmere, C. W. van den Berg & B. P. Morgan:** Production and functional characterization of a soluble recombinant form of mouse CD59

Vol 99, No 3, March 2000

Editorial

333 **M. Kemeny**

Rapid communication

334 **S. M. Todryk, A. A. Melcher, A. G. Dalgleish & R. G. Vile:** Heat shock proteins refine the danger theory

Original articles

338 **J. N. Francis, A. G. Lamont & S. J. Thompson:** The route of administration of an immunodominant peptide derived from heat-shock protein 65 dramatically affects disease outcome in pristane-induced arthritis

345 **J. Wither & B. Vukusic:** T-cell tolerance induction is normal in the $(NZB \times NZW)F_1$ murine model of systemic lupus erythematosus

352 **K.-H. Sun, C.-L. Yu, S.-J. Tang & G.-H. Sun:** Monoclonal anti-double-stranded DNA autoantibody stimulates the expression and release of IL-1β, IL-6, IL-8, IL-10 and TNF-α from normal human mononuclear cells involving in the lupus pathogenesis

361 **S. Behboudi, D. Chao, P. Klenerman & J. Austyn:** The effects of DNA containing CpG motif on dendritic cells

367 **R. Maile, K. A. Elsegood, T. C. Harding, J. B. Uney, C. E. H. Stewart, G. Banting & C. M. Dayan:** Effective formation of major histocompatibility complex class II–peptide complexes from endogenous antigen by thyroid epithelial cells

375 **B. Müller, B. Fischer & W. Kreutz:** An acidic microenvironment impairs the generation of non-major histocompatability complex-restricted killer cells

385 **L. Tasker & S. Marshall-Clarke:** Antigen receptor signalling in apoptosis-resistant mutants of WEHI 231 cells

394 **S. B. Campbell, T. Komata & A. Kelso:** Differential effects of CD4 and CD8 engagement on the development of cytokine profiles of murine $CD4^+$ and $CD8^+$ T lymphocytes

402 **T. Jinquan, S. Quan, H. H. Jacobi, H. O. Madsen, C. Glue, P. S. Skov, H.-J. Malling & L. K. Poulsen:** CXC chemokine receptor 4 expression and stromal cell-derived factor-1α-induced chemotaxis in $CD4^+$ T lymphocytes are regulated by interleukin-4 and interleukin-10

411 **R. F. Searle, S. J. Bromage, J. Palmer, J. E. Curry & A. K. Lang:** Human amniotic fluid lacks interleukin-2 and interleukin-15 but can interact with the β-chain of the interleukin-2 receptor

418 **P. Welker, J. Grabbe, B. Gibbs, T. Zuberbier & B. M. Henz:** Nerve growth factor-β induces mast-cell marker expression during *in vitro* culture of human umbilical cord blood cells

427 **R. E. Déry, T.-J. Lin, A. D. Befus, C. D. Milne, R. Moqbel, G. Ménard & E. Y. Bissonnette:** Redundancy or cell-type-specific regulation? Tumour necrosis factor in alveolar macrophages and mast cells

435 **T. Yamamoto, K. Hartmann, B. Eckes & T. Krieg:** Mast cells enhance contraction of three-dimensional collagen lattices by fibroblasts by cell–cell interaction: role of stem cell factor/c-kit

440 **L. M. Allende, M. Hernández, A. Corell, M. A. García-Pérez, P. Varela, A. Moreno, I. Caragol, F. García-Martín, J. Guillén-Perales, T. Olivé, T. Español & A. Arnaiz-Villena:** A novel CD18 genomic deletion in a patient with severe leucocyte adhesion deficiency: a possible CD2/lymphocyte function-associated antigen-1 functional association in humans

451 **T. Kezuka & J. W. Streilein:** Evidence for multiple CD95–CD95 ligand interactions in anterior chamber-associated immune deviation induced by soluble protein antigen

458 **H. S. Gill, K. Altmann, M. L. Cross & A. J. Husband:** Induction of T helper 1- and T helper 2-type immune responses during *Haemonchus contortus* infection in sheep

464 **S. Bao, K. W. Beagley, M. P. France, J. Shen & A. J. Husband:** Interferon-γ plays a critical role in intestinal immunity against *Salmonella typhimurium* infection

473 **R. E. Tascon, C. S. Soares, S. Ragno, E. Stavropoulos, E. M. A. Hirst & M. J. Colston:** *Mycobacterium tuberculosis*-activated dendritic cells induce protective immunity in mice

Vol 99, No 4, April 2000

Original articles

481 **M. Iwao, S. Fukada, T. Harada, K. Tsujikawa, H. Yagita, C. Hiramine, Y. Miyagoe, S. Takeda & H. Yamamoto:** Interaction of merosin (laminin 2) with very late activation antigen-6 is necessary for the survival of $CD4^+$ $CD8^+$ immature thymocytes

489 **A. Aono, H. Enomoto, N. Yoshida, K. Yoshizaki, T. Kishimoto & T. Komori:** Forced expression of terminal deoxynucleotidyl transferase in fetal thymus resulted in a decrease in γδ T cells and random dissemination of Vγ3Vδ1 T cells in skin of newborn but not adult mice

498 **M. D. Bodman-Smith, A. Anand, V. Durand, P. Y. Youinou & P. M. Lydyard:** Decreased expression of FcγRIII (CD16) by γδ T cells in patients with rheumatoid arthritis

504 **H. Yang & R. M. E. Parkhouse:** Characterization of the porcine γδ T-cell receptor structure and cellular distribution by monoclonal antibody PPT27

510 **K. Bartnes & K. Hannestad:** Native $IgG2a^b$ is barely antigenic to major histocompatability complex class II-restricted T cells owing to inefficient internalization by professional antigen-presenting cells

523 **L. Faulkner, G. Buchan & M. Baird:** Interleukin-10 does not affect phagocytosis of particulate antigen by bone marrow-derived dendritic cells but does impair antigen presentation

532 **C. Wagner, A. Bürger, M. Radsak, S. Blum, F. Hug & G. M. Hänsch:** Fibronectin synthesis by activated T lymphocytes: up-regulation of a surface-associated isoform with signalling function

540 **M. B. Parr & E. L. Parr:** Interferon-γ up-regulates intercellular adhesion molecule-1 and vascular cell adhesion molecule-1 and recruits lymphocytes into the vagina of immune mice challenged with herpes simplex virus-2

546 **A. Higginbottom, I. Wilkinson, B. McCullough, F. Lanza, D. O. Azorsa, L. J. Partridge & P. N. Monk:** Antibody cross-linking of human CD9 and the high-affinity immunoglobulin E receptor stimulates secretion from transfected rat basophilic leukaemia cells

553 **A. Hida, A. Kawakami, T. Nakashima, S. Yamasaki, H. Sakai, S. Urayama, H. Ida, H. Nakamura, K. Migita, Y. Kawabe & K. Eguchi:** Nuclear factor-κB and caspases co-operatively regulate the activation and apoptosis of human macrophages

561 **A. Kondo, S. Isaji, Y. Nishimura & T. Tanaka:** Transcriptional and post-transcriptional regulation of monocyte chemoattractant protein-3 gene expression in human endothelial cells by phorbol ester and cAMP signalling

569 **T. Lehner, Y. Wang, M. Cranage, L. Tao, E. Mitchell, C. Bravery, C. Doyle, K. Pratt, G. Hall, M. Dennis, F. Villinger & L. Bergmeier:** Up-regulation of β-chemokines and down-modulation of CCR5 co-receptors inhibit simian immunodeficiency virus transmission in non-human primates

578 **E. Oviedo-Orta, T. Hoy & W. H. Evans:** Intercellular communication in the immune system: differential expression of connexin40 and 43, and perturbation of gap junction channel functions in peripheral blood and tonsil human lymphocyte subpopulations

591 **J. R. Velazquez, P. Lacy & R. Moqbel:** Replenishment of RANTES mRNA expression in activated eosinophils from atopic asthmatics

600 **M. Shiraishi, N. Hirasawa, S. Oikawa, Y. Kobayashi & K. Ohuchi:** Analysis of histamine-producing cells at the late phase of allergic inflammation in rats

607 **S. Yoshino, E. Sasatomi & M. Ohsawa:** Bacterial lipopolysaccharide acts as an adjuvant to induce autoimmune arthritis in mice

615 **T. Sakai, H. Hisaeda, Y. Nakano, H. Ishikawa, Y. Maekawa, K. Ishii, Y. Nitta, J. Miyazaki & K. Himeno:** Gene gun-mediated delivery of an interleukin-12 expression plasmid protects against infections with the intracellular protozoan parasites *Leishmania major* and *Trypanosoma cruzi* in mice

625 **I. Kingetsu, N. Ohno, N. Hayashi, M. Sakaguchi, S. Inouye & S. Saito:** Common antigenicity

between Japanese cedar (*Cryptomeria japonica*) pollen and Japanese cypress (*Chamaecyparis obtusa*) pollen, I. H-2 complex affects cross responsiveness to Cry j 1 and Cha o 1 at the T- and B-cell level in mice

630 **N. Ohno, T. Ide, M. Sakaguchi, S. Inouye & S. Saito:** Common antigenicity between Japanese cedar (*Cryptomeria japonica*) pollen and Japanese cypress (*Chamaecyparis obtusa*) pollen, II. Determination of the cross-reacting T-cell epitope of Cry j 1 and Cha o 1 in mice
